

 **Cleaning the hard to clean**

Aquaease Infinity®

Extended Cleaning Bath Life. Less Waste.

Revolutionize your cleaning process, optimize efficiency and achieve environmental stewardship simultaneously with the Aquaease Infinity® membrane filtration system. By removing emulsified oils from cleaners and reclaiming them with up to 98% efficiency, our technology ensures unparalleled process stability and superior cleaning results. Extend the life of your cleaning bath and eliminate the necessity for frequent bath dumps.

AquaEase Infinity cleaners retain their efficacy.

Left: A “ready to dump” oil saturated cleaner.

Right: AquaEase Infinity cleaner after the membrane process.

Key Benefits

- Reduce costs by minimizing waste generation – up to 35%.
- Reduce chemical consumption – up to 60%.
- Reduce downtime & increase productivity – up to 3x.

“Sustainable development is development that meets the needs of the present without compromising the ability of future generations to meet their own needs.”

UN World Commission on
Environment and Development

How it works

Cost Savings Example

Annual cleaner spend	\$100,000
Amount of cleaner lost to drag out	\$35,000
Reclaim efficiency	98%
Annual cleaner chemistry saved:	\$63,700
Total savings after lease is factored in:	\$37,300
(lease cost is \$2,200/month)	

Steps to Implementation

- 1 Bench test:** confirms the ability to separate process oil from AquaEase Infinity cleaner.
- 2 Demo unit:** we deliver a demo unit and calibrate the process to optimize cleaner, unit efficiency and membrane porosity.
- 3 Ready to go?** Improve quality, reduce waste and start saving cost on day one with our 3-year lease program.

Our people. Your problem solvers.

Expertise you can trust. 32% of Hubbard-Hall associates are in tech support, customer service or sales. This means that you get answers fast while the rest of our team gets your order delivered on time and in spec.
